| Vendor Comments    | Unfortunate sale of our PTIC heifers, we bought these heifers unjoined and mated them to increase our cattle numbers but with the locally dry season we are moving them on.                                                     |            |        |

| Assessor Comments     | An opportunity to purchase 32 well bred PTIC Angus and Angus X heifers. 31 of the 32 heifers preg-tested in calf 4-5 months and will calve over a short 5 week period. Heifers are in calf to easy calving Lancaster Black Simmental. 29 of these heifers were purchased in February from the Adelaide hills to add to Long Valleys breeding numbers but due to the locally dry season we are shifting them on. 3 white face heifers are Angus X Simmentals and I noticed 3 of the Angus heifers have some white underneath. |                             |                         |                |
