	Heifers handled well through yards with only small % becoming agitated in crush during mouthing & preg testing but settled once being returned to mob			
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot			
Assessor Comments	Buyers an opportunity to secure a very good 4 deck line of crossbred heifers ideally suited to the Domestic Feeder market all mouthed up predominately milk tooth (with only 8 having 2 teeth) and drafted into tight feedlot spec weight range. Alternatively heifers have the quality to join to a bull of your choice and the majority would be an asset to most breeding herds, showing good bone and length. Heifers were purchased from western Qld herds as lightweight weaners and have performed well over the 12 months however will be big compensatory gains due to a cold winter on lighter country. Please note some heifers showed signs of fly & lice rub marks and 1 missing bush off tail not deemed detrimental. Please note Vendor has 2 decks of pregnant sisters in Eastern states sale.			
Assessor	Peter Elmes (Level 2 Accredited) Phone: 0428 666 546			
Delivery Period	07/08/2022 to 09/08/2022 (3 days)
