Assessor Comments	A very good quality line of Angus/Brahman cross steers, 4-7 months, weighed 173 to 323 kgs to average 238 kgs 2 hours off feed. Steers are in fresh store to forward store condition and have grown out well on soft Buffel country. They were all easy to handle in the yards. The steers present fresh in the coat and are in good healthy condition going forward. An obvious tail has been removed! By the time they go on the truck they will have had close to 2 weeks of handling which will quietening them right down. See 84 heifers in this sale as well.
