Assessor Comments	A very good quality line of Angus/Brahman cross Heifers, 4-7 months, weighed 161 to 298 kgs to average 220 kgs 2 hours off feed. Heifers are in fresh store to forward store condition and have grown out well on soft Buffel country. They were all easy to handle in the yards. The heifers present fresh in the coat and are in good healthy condition going forward. An obvious tail has been removed! By the time they go on the truck they will have had close to 2 weeks of handling which will quietening them right down. See 85 steers in this sale as well.
