Vendor Bred Yes
 Stock History Bred out of an original herd of Hereford and Hereford cross cows that have been crossed with Droughtmaster, Charolais, Hereford, Simmental and Santa bulls and progeny by the same breeds. Odd Brangus cow in the breeders as well, hence some are black.
 Lifetime Traceable 100% of cattle in this lot are Lifetime Traceable
 Bloodlines Droughtmaster bulls ex: Glenlands, Charolais bulls ex: Tanic & Moongool, Simmental bulls ex: Meldon Park & Santa bulls ex: Cardona & Dunlop.

Grazing Conditions Bred on light Ironbark forest country grazing native grasses. Since weaning have been on forage sorghum and Rhodes grass hay in the yards.
 Returned to: Will remain in the yards on hay.

J-BAS Score	6		
Vendor Comments	Vendor won Champion Grainfed Carcass at the Callide Dawson Carcass Competition for 2020 with a Charolais/Hereford cross steer. There were 520 entries so this is a massive achievement. Have backed it up in 2021 by winning the 100 day grainfed class.		
Temperament	Yards	Crush	Paddock
	Quiet: 159 head	Quiet: 159 head	Temperament not assessed in Paddock
	Steers were very good to handle in all areas of the yards and also considered quiet when moving from yard to yard. In the crush they were generally quiet even whilst being fitted with an NLIS device. Generally, the temperament is not an issue at all. Buyers should be warned however, most cattle need to be settled down on arrival after a truck trip and in strange surroundings before they are shown the bush gate.		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs		
Assessor Comments	Buyers, a 4-deck line of good quality soft flatback type weaner steers bred on light Ironbark forest type country. These steers do not appear to have suffered any setbacks and have presented in good store condition so expected to really go ahead quickly on heavier country. Buyers are not purchasing sappy weaners that could possibly melt after purchase and I predict these will fly ahead. Most show adequate weight for age and length and very good muscling and bone development. They will suit restockers to take them through on either crop or improved pastures to heavier domestic or export feeder weights. They do appear to be in very good health, very clear in the eye and no respiratory issues. Buyers in clean country be aware these will have had two plunge dips in preparation for entry to all tick free areas. Please note there is a line of heifers in this sale from the same property. Repeat buyers are now operating and buying these cattle so the "proof is in the pudding".
