|                    | Steers were very good to handle in yards considering they were only weaned 24hrs prior to assessment and a truck trip in between. Steers flowed through the yards without any issues with only 3hd getting slightly agitated while being weighed.                                                                                                                                                                                                                                                                                                                                                                                                                              |     |                                           |     |                                     |      |

| Assessor Comments  | Buyers a very good opportunity to secure a high calibre line of well renown doing Steers. These Steers are out of a very well known Cow herd around the Toobeah and Goondiwindi district. Steers show very good weight for age, length of body with depth and softness. These Steers are ideal for a backgrounding operation looking for Steers to put on a Oats crop to take through to heavier weights to suit Domestic trade or heavy Export Feeder Steers/Bullocks. Please note only 3hd under 270kg due to them only being younger. Same vendor same sale has the Heifer portion also available. Please note same vendor same sale has the Steers portion also available. |     |                                           |     |                                     |      |
