Assessor Comments	A top quality line of principally Angus Heifers NSM. Heifers have 2 PIC Numbers from Vendors 2 properties. Heifers are well grown and in forward condition. Very feminine heifers that show very good bone and type. A small tail has been removed from these heifers. Top quality bulls purchased and selected for temperament, 200, 400, 600 day weight gain and grass feed indexing. Note - 2 Heifers show very slight fly rub around eyes. Heifers do have light to heavy dags on tail from Oats Crop. These cattle have a very good reputation with steers this year going to feedlot at 12-13 months weighing 480kgs. Heifers bred from a top quality cow herd that are very large frame and always culled for fertility and temperament. Top quality heifers suitable to selected feedlot markets or keep as a very good line of future breeders.
