Assessor Comments	This is a outstanding line of Angus Heifers out of a highly recognised cow herd. The genetics in these heifers are by Booragul, Dunoon, Rennylea and K O Angus. The steers consistently perform to a high standard at Rangers Valley Feedlot in the long fed program. All bulls used in the herd average in the top 20% for growth carcass and maternal traits. There are 8 heifers in the mob with white on their udder, and 1 heifer has pink eye scarring in both eyes. There are 5 heifers with signs of Ringworm in the mob and a handful of heifers showing signs of rubbing. These heifers will make outstanding future breeders and will not disappoint any Angus breeder.
