	These heifers were agitated once removed from the main mob.
Handled With	Bikes , Dogs , Horses
Assessor Comments	This is a outstanding line of Angus Heifers out of a highly recognised cow herd. The genetics in these heifers are by Booragul, Dunoon, Rennylea and K O Angus. The steers consistently perform to a high standard at Rangers Valley Feedlot in the long fed program. All bulls used in the herd average in the top 20% for growth carcass and maternal traits. There are 4 heifers in the mob with white on their udder, and 2 heifers have pink eye scarring in one eye. There are 2 heifers with signs of Ringworm in the mob and a handful of heifers showing signs of rubbing. These heifers will make outstanding future breeders and will not disappoint any Angus breeder.
