Paddock

Assessment day was the first time steers had been yarded since marking in 2021. As a mob all were slightly agitated while being worked in small handling facilities. Some became agitated in crush while others were quite easy to handle. With more handling it would be expected that steers would become much more settled and easy to handle as they mature.

Handled With

Bikes , On foot , Vehicles

Assessor Comments

A very good quality line of vendor bred steers that show good confirmation and muscling. This sale represents complete drop with a small tail removed, presenting in fresh condition. Steers have been running with cows and were weaned on day of assessment. One steer with slight pink eye scarring in one eye, not active.
