Temperament	Yards	Crush	Paddock
	Quiet: 50 head	Quiet: 49 head Slightly Stirry: 1 head	Quiet: 50 head

Heifers were very easy to handle, all flowed through yards very easily, not pushing in race and remained calm in the crush for weighing. The one noted as slightly stirry in crush was due to being mouthed. Heifers were very obliging for photos both in paddock and yards. Great to handle.

Handled With: Bikes , Dogs , On foot

Assessor Comments: Presenting 50 *EU* quality Angus heifers. Vendor bred heifers, with years of breeding reflecting in quality and temperament. Hazeldean and Te Mania sires used for many years, with focus on ease of calving and growth. Presenting in forward store condition, heifers are in great order for this time of year. Heifers are PTE - all heifers are sound with any free martins or other faults removed. 18 to 22 months of age, majority being 18 months of age, and only a handful around the 22 month age. Small tail removed, keeping minimum weight above 350kg to maintain options for joining or feeder weights. Ideal heifers for future breeders, with weight, condition, maturity and the quality to join in the short term future. Heifers will also suit any feeder or backgrounding options (EU options also), with the quality that will perform to take through to heavier weights. Highly recommended.
