Assessor Comments	Buyers these large framed EU Accredited cows are full of calf, quiet, and fat already! buy them calve them down & you'll get great cross bred calves which over the years have always sold remarkably well for the Shannon family. These cows are all in very good condition so id expect their mouths to be worn but sound. If there was issues with dentition they wouldn't present as fresh and fat as they do. These cows are already heavy so was a calf is weaned off and they dry off and harden up they'll be great slaughter cows. Vet tested with 13 of the 16 noted to be all 6 months plus, and 3 hd 3-4 months at time of assessment. These cows will be calved down, reared their calves and gone by autumn next year! Here's a great opportunity to buy a neat load of quiet cows to trade, realistically reserved, 2 calves on the ground already! I highly recommend these Shannon family EU Accredited cattle.
