This line of young breeders handled well having their calves drafted off and being weighed. One Brangus cow is slightly stirry the others you have to push out of the way!

Handled With	Bikes , Horses
Assessor Comments	Buyers here's a opportunity to buy good, well grown mainly first & second calvers! This line of breeders are doing a great job on their calves, especially given the size of some of those calves. The udders, legs, feet & hips all inspected sound. There is a fair amount of quality in these young breeders as the Brangus & most of the Droughtmasters have stud numbers fire branded on them. Vendor selling due to change of circumstances. I recommend these young cows as breeders and or real tidy units to fatten & split over the coming months.
