Good Cows to handle in paddock, no problem with bikes, 3 cows slightly stirred up when preg tested.

Handled With Bikes

Assessor Comments This is a good line of Angus cows on the point of calving. They are good to large frame and true to breed type, these cows carry the excellent genetics of Glengowan, Bronmar and Waitara which show in there quality. All Cows PTIC to Wiatara Bulls with 22 being 4 months to 8 months in calf and 1 cow just under 4 month, majority of the cows are over 6 months. 8 cows mouthed at assessment and 7 found to have solid sound mouths, One cow slightly worn. These cows would be an asset to any breeding operation. A must to consider.
