	Typical of station bred and managed cattle. These cattle are run in large mobs and handled accordingly. They have been educated to move when pressure is applied but also settle when the pressure is off.		
Handled With	Bikes , Dogs , Horses		

Assessor Comments	The start of the Benison Family's herd dispersal from "Buckinbah". Years of breeding with K.O Angus blood used for 15 years targeting leading sires focusing on milk & growth. "Buckinbah" has been sold & the years of breeding being offered for sale. Sound station cows that have been run in large mobs & mothered on property. These females are being offered as mixed ages with majority 4-8 years. Cattle are more suited to experienced stockperson, but would settle on smaller holding. 4 Cows were noticed with white on udder. An opportunity for the discerning buyer to purchase good quality Angus genetics.
