Typical of station bred and managed cattle. These cattle are run in large mobs and handled accordingly. They have been educated to move when pressure is applied but also settle when the pressure is off.

Handled With: Bikes , Dogs , Horses

Assessor Comments: The start of the Benison Family's herd dispersal from "Buckinbah". Years of breeding with K.O Angus blood used for 15 years targeting leading sires focusing on milk & growth. "Buckinbah" has been sold & the years of breeding being offered for sale. Sound station cows that have been run in large mobs & mothered on property. These females are being offered as mixed ages with majority 4-8 years. An opportunity for the discerning buyer to purchase good quality Angus genetics.Cattle are more suited to experienced stockperson, but would settle on smaller holding. Buyer please note one cow was noted with a bad udder & one calf was noted with an under bite.
