Assessor Comments	A neat line of vendor bred 3 year old cows PTIC to calve from the middle of September through to the middle of October. these cows are only being sold due to their later calving date. Classed in females bred from a very good self replacing herd for 20 years using Rennylea and Temania bloodlines focusing on top 5% IMF & high growth EBV'S and back in calf to the same bulls. The Coolac Cattle co stock are proper performance cattle and are always sought after by repeat buyers and their steers are top performers at rangers valley , Cows are going forward and have plenty of room to put more weight on. Two cows noticed with old pink eye scaring, their eye sight didn't seem impaired.
