Assessor Comments High Quality PTIC Cows from a great Herd. Sound and right to carry on their breeding careers. Quiet, forward to fat condition except 1 presented leaner at 481 kg. Mob average 583 kg curfewed. Tight 25 day calving pattern with bulls in from 9th May. Expect early calves from mid February. The main herd calve Jul / Aug as these originally did not conceive they were re joined and now offered for sale. 4 old cloudy eyes- not detrimental-worste evident in media. 3 showing white on udder. Carrying my highest recommendation, please call if any questions.
