| Assessor Comments | A rare opportunity to acquire a quality line of heifers with first calf at foot and tested back in calf to the same bull (with the exception of 2 head). The Fredrick family have been farming on Fredlim since 1878 and concentrated on breeding Angus Cattle for in excess of 30 years. For a majority of that time only using Witherswood sires until the dispersal of said stud. These Calves are by a Prime Angus bull (Ardrossan Marlon Brando Q104). They have been joined back to same bull and PTIC apart from 2 head which have been noted down by tag number and banged tail, for future buyer to identify. Selecting bulls and heifers for structure, temperament and positive growth/fertility. These heifers demonstrate good frame and weight, in genuine store condition. Only being offered to a change in Enterprise. Come highly recommended and would compliment any Angus herd. |
