These steers handled well considering they have just been drafted off their mothers, the flowed through the race and crush well.

Assessor Comments Yard weaned, well bred, soft and well grown this line of steers will be highly sought after. These steers are young and very well grown, they are out of large framed cows and by good bulls. About half are off cows that have recently been bought in as replacements. The balance are out of Large framed 'The Grove' blood females. These steers all show the attributes to be able to grow into Ox & very good styles of feeders. There appears to be a small amount of lice activity present, vendor intending on treating prior to delivery. I recommend these steers.
