|                               | A very quiet mob of weaners to assess. Weaners are regularly weighed and ran through yards and this was obvious at assessment as none hesitated when flowing through yards and up into crush to be weighed. Non were aggressive or stirry at assessment and had respect for operators when in yards they were easy and a pleasure to handle. |                |                |
