Assessor Comments	An excellent quality line of Angus steers. The Linden female herd was originally based on the purchase of Reiland blood Angus cows and they have been using high quality Bongongo bulls over these cows. Linden purchase bulls at the top end of the Bongongo catalogue and the quality of the genetics show. They are out of large to very large frame cows and show good weight for age in what has been a long wet winter. These steers show excellent frame and would be ideal to put on crop. They are known for performance and would be suitable to take out to the feedlot or grass-fed markets. It should be noted that the vendor is not retaining any steers from this mob, giving the purchaser the opportunity to buy the top of the drop. A small tail was removed at assessment.
