Assessor Comments	A great even line of Angus Cross hefiers off "SnowVale", presenting in fresh forward condition with good bone and shape coming through a cold Upper Murray winter. These heifers would make a great addition to a Spring calving herd or could be carried over for an autumn calving herd. They have been set up to be great commercial breeding prospect, from a herd focusing on calving ease, good growth rates and good temperament. All animal health treatments up to date, with the first does of Pestiguard in mid July. Grass fed heifers that would make great future breeders or trade heifers. *Grass fed eligible
