Assessor Comments	A great even line of hereford heifers off "SnowVale", presenting in fresh forward condition with good bone and shape coming through a cold Upper Murray winter. These heifers would make a great addition to a Spring calving herd or could be carried over for an autumn calving herd. They have been set up to be great commercial breeding prospect, from a herd focusing on calving ease, good growth rates and good temperament. All animal health treatments up to date, with the first does of Pestiguard in mid July.
