Comment on Fat Score 1 Sheep Score 1 ewes represent younger ones in mob, fit strong and healthy.

Mulesed	No
Shearing Info	Unshorn Not Crutched
Wool Length	80% 0 - 0.25" 20% 0.25 - 0.5"
Majority Length	5 Millimetres
Degree Burr	Very Light Type: Galvanised
Degree Seed	None Observed
Skin Comment	Typical dorper skin
Wool Comment	Some showed longer dorper wool but all would be best described as genuine shedding types, with many slick coated animals.

Quality Grades									
Excellent	10%								
Very Good	70%								
Good	20%								
Assessor Comments	A quality line of vendor bred, large frame Dorper/White Dorper ewes on offer, with many years of breed and fertility selection within this flock. They are in forward store to fat condition benefiting from an excellent season with plenty of years of breeding ahead of them. Sired by very good Burrawang, Bellevue and Dust & Rain Rams. Vendor is renowned for selection with maiden ewes sold on if not SIL first time around. These ewes have all previously produced a lamb, apart from 40-50 young ewes that have never been joined prior. All ewes have been cleaned out with a Cydectin Ewe Guard at assessment as well as the vendor joining this line of ewes giving any buyer a head start in their program, although it would be advised to continue to join these ewes to reach maximum cycles/lambing potential. There were approx 5 ewes noted to have longer tail at assessment.								
Assessor	Sam Clements (Level 3 Accredited) Phone: 0455 033 292								
Delivery Period	30/08/2022 to 03/09/2022 (5 days)
