Preg Scanned?	No, this lot was not pregnancy scanned.		
Assessor Comments	A well bred line of vendor bred 1st x ewes. These ewes have all previously had lambs and are now on there second lamb. They are well grown with a March skin on them. They are 22 to 23 months of age and have been running with the Rosedale plains poll Dorset rams from the 5th of April to the 15 th of June. Approximately 6 ewes have bleached wool from old fly strike. In all a very good line of 1st x ewes to take on and lamb down into what's going to be a magnificent spring.
