Quiet: 94 head	Slightly Stirry: 13 head	
Slightly Stirry: 8 head	Stirry: 8 head	

Generally very good to handle. weaners worked through the race and head bail exceptionally well with minimal pressure applied. first run through the yards at assessment and weaners performed very well. small percentage of slightly stirry and stirry only due to missing the gate into the race and being put under pressure on their own. Easily worked through all the yards by 2 people with no concerns. and will be much better from handling and education until delivery.

Handled With	Bikes , On foot , Vehicles

Assessor Comments	3 decks of very good quality Santa/Droughtmaster and Ultrabalack cross weaner heifers ideally suited to southern markets. Weaners are out of a highly functional herd of Santa and Santa Cross cows based on Drensmaine Santa genetics by very good quality Rondel Droughtmaster and Ardrossan Ultrablack bulls. 100% x Branded #2's, with 2 x unmarked heifers still requiring marking. weaners are in a strong condition and show plenty of bone and frame throughout the mob. These weaners have a fantastic reputation as heavy feeder and Slaughters and are being sold much earlier than usual due to a shortened growing season and grass requirements for breeders. A great opportunity to purchase a line of high quality Santa X Weaners that are highly regarded and carry some excellent genetics. small percentage of weaners by neighbouring brahman bull still soft crossbred types but with an obvious higher content are included in the sale at a discount of $50 per head.
