The majority of these heifers worked well through the yards, the odd heifer stirred up and resented being mouthed, weighed and assessed. However they settled down on their release and when they re-joined the mob. Temperament is not an issue with these heifers.

Assessor Comments Vendor presents 67 good to very good quality, quiet, Angus heifers for your consideration. These heifers are well grown and educated and are expected to be 380kg at delivery making them ideal weight and maturity to breed to the bull of your choice or put in a pen and feed. 4 heifers were noted to have some white markings around the udder, 1 heifer has white markings around neck, (thought to be birth mark please see photos) 2 heifers have slight cloudy eyes, and another 2 heifers have a blue spot or blue scarring on their eye. 4 heifers also were noticed to have signs of lice. Please Note, vendor does have another 2 smaller lots of heifers in the same sale which may help with freight, alternatively vendors are happy to drop off some heifers to make it more comfortable loading 2 neat decks. Vendor also happy to hold heifers longer than stated delivery period if flooding or rain affects purchaser.
