Assessor Comments	A good line of Brahman x backgrounder steers. These steers are all bred on light forest country and have been running in hilly, forest, lantana country since weaned. This line of steers are renowned for their doing ability. They have got plenty of frame to put the weight on going forward. Ideal steers to grow out to feeders or fatten for a grass program. All one brand account the vendor. This lot have all been pre-treated for ease of movement to tick free areas. The vendor will pay for the steers to be cleared on property and guarantees them clean if required to go to tick free areas. This lot is one of two mobs from the same vendor. Be sure to check out the second mob of 92 from a different property.
