These heifers were very good to handle while in the yards. Two became slightly agitated in the crush. All cattle settled well after weighing and while the photos and videos were being taken.

| Assessor Comments | A line of good to very good flatback heifers averging 350kg curfewed. Medium to large frame soft doing heifers in good condition and going ahead very well. Ready to join, the majority would suit as future breeders. The heifers were pregnancy tested by the vet on the day after assessment, all were found not detectably pregnant. Certificate available. They would also suit to take on grass or grain to Supermarket weights. Never been fed grain so are grass fed market eligible. Note the photos and videos include 4 lighter heifers which were later taken out of the line. These were the 4 lightest at 306-310kg at assessment. One heifer has a very small lump on the jaw bone, should not affect doing ability. |
