Assessor Comments	A neat deck of mostly good to very good quality, young, soft steers that will average 352kg at delivery. These steers are suited to put into a pen and feed as a trade steer or keep going through to heavier feeder weights or fatten to kill. PLEASE NOTE, these steers were treated at assessment with Dectomax Pour on for lice as hair loss and some ring worm was noticed on 5 steers. 2 steers also were noticed to have warts on their eyes and one steer had a small lump on his neck likely to be a reaction from an injection.
