Heifers generally handled well through yards. Some heifers were agitated in crush but settled quickly in mob.

Handled With

Bikes , Dogs

Assessor Comments

A good line of soft crossbred heifers that were preg tested not detectable on 07/06/2022 by Goondiwindi District Vet Service. 1 santa bull did get in with the heifers (total number of heifers in paddock was 105) for 3 days after preg testing. Heifers are all No 1's and are well grown. Heifers in good store condition and going ahead now. Opportunity for good weight gain on good feed. Approx 4 heifers show very slight hump. Tail of these heifers has been removed (Brahman types and lesser quality taken out). Heifers suitable to feeder markets, backgrounding or keep as future breeders.
