Heifers were generally good to handle in and around cattle yards, free flowing heifers that will move off easily. Heifers became agitated through mouthing but settled once back in the mob.

Assessor Comments Buyers, a run of heifers that were purchased ex Coastal saleyards that have been running on wintery New England pastures. Heifers were preg tested empty mid July with Vendor confident having no access to a bull. These cattle are just starting to hit their straps and with a rising plan of nutrition I have no doubt that they will go ahead. All heifers were mouthed at assessment for buyer confidence. A great opportunity to put a run of heifers together to either join to a bull of your choice or take out to feeder weights. Please note one heifer knocked her hip during assessment.
