Temperament	Yards	Crush	Paddock
	Quiet: 9 head Slightly Stirry: 2 head	Quiet: 6 head Slightly Stirry: 5 head	Quiet: 11 head
	Heifers handled well throughout the yards, they did have some rush about them, in particular through gates etc, only typical of age & the fact they'd had just be ran in with no time to settle. Nothing showed aggression, with more handling these heifers should be great to work with.

Assessor Comments	11 weaned Angus heifers averaging 227.8 kg full weight at assessment. These heifers are powering ahead after being weaned on the 20th August onto lush grasses, clovers and medics. They ran into the yards very well and handled also very well (refer to temperament comments for further details). These heifers should not disappoint given the opportunity. Vendor is happy to sign PCAS eligible declaration if purchaser requests. Buyers please note 2 heifers observed with slight blue eyes, & at least 2 heifers have varying degree of white on udder. All heifers observed having a few Bathurst Bur seeds in coats. Nothing considered detrimental. Vendor also offering 12 steers in todays sale.
