	Steers were a pleasure to handle and walk around yards to photograph. Typical one or two became slightly agitated when pressure applied or on scales in crush, all walked off and joined the mob and calmed quickly.
Handled With	Bikes , Dogs , Horses
Assessor Comments	Speckle Park steers 339kg averaged at assessment after 4 hours off feed. These steers show plenty of bone & softness, they should not disappoint and will go on to deliver & meet most market specs. Vendor happy to sign PCAS eligible form if needed. Steers are sired by the Panorama Farms Speckle Park bulls, the majority being F2 Speckle Park cross. There are about 2 steers observed with slight Bos Indicus influence, still should affect end market. At least 3 steers seen with very slight blue eye scarring, wouldn't be considered detrimental. Vendor also has 48 heifers available in todays sale.
