| | Steers were easy to handle in and around yards. The typical occasional steers slightly agitated when pressure was on, quickly calming once back with mob. | | |

| Assessor Comments | 9 Angus steers. These steers show plenty of bone and depth they should not disappoint and will meet most market specs. They have been running on the oats crop for the last 9 weeks approximately. They have picked up and gone ahead with the warming weather. Please note 2 steers seen with old rub mark, 3 seen with slight wart nothing considered detrimental. Vendor also offering 7 black baldies in todays sale. |
