These steers were a pleasure to handle through the whole process. Due to age I didn't mouth them. They were happy to stand quietly on the scales and moved through the yards with ease.

Handled With	Bikes , Vehicles
Assessor Comments	Quality line of crossbred steers that have had an excellent time of things their entire life. Steers that exhibit good bone, length, depth, thickness and muscle pattern see photos. Odd steer has small ringworm not deemed detrimental. This line of cattle would suit the feedlots or crop finishers alike, very much on the do and the weight for age shows they will perform! Very quite to handle in their own environment given they'd run in straight off the crop.
