Heifers are good too handle when drafting in confined spaces although there is the odd heifers that will become agitated under pressure when confined.

Handled With: Bikes

Assessor Comments	A high quality line of EU Angus heifers that are full of genetics and years of breeding. The Isla Angus herd is largely based on Isla, Booroomooka and Millah Murrah bloodlines and run a fully self replacing herd. These heifers are starting to lose their winter coat and full of frame with little condition. A classy line of young fertile females that will make beautiful breeders in the future. This is a line of 150 heifers being offered as two lots of 75 as a run out the gate. NB: Same vendor has another run of 106 heavier heifers in same sale. Please note there is an odd heifer with a white patch on udder. All double cloudy eyes were removed, there is the very odd single scarring NCD.
