Assessor Comments	A very nice line of vendor bred Angus steers that are just starting to adjust to the green feed they are on. Steers are starting to improve on the green fed they are on and given the right opportunity should do well into the warmer months. Steers are well grown for their age and stand on good bone. Sired by Cascade Angus bulls these steers would suit the top end feeder markets or alternately fattened for trade or export markets Steers are well handled and up to date with animal health . Very small percentage of the steers were marked a little later than the balance how ever nothing shows any hardness in the coat. There we're steers that had hair off from rubbing through out winter over shoulder visable. Vendor has another lot of steers in sale as well & two lots of heifer in this sale
