Handled With	Heifers generally handled well through yards. Some heifers were agitated in crush but settled quickly once back in the mob. Bikes , Dogs																		
Assessor Comments	A very good line of Charolais Cross Heifers PTIC to quality Palgrove Ultrablack and Burenda Angus bulls. Preg tested by Goondiwindi District Vet Centre on 07/06/2022 being 1-4 months in calf - Now 3.5-6.5 months in calf. Heifers are well grown and show very good bone and type. Heifers have only been on oats for 1 week (will return to oats), previously on frosted buffell grass. Heifers are not carrying any excess condition and will respond quickly on good feed. Note: 1 heifer has dog bite. Top quality future breeders that have the potential to grow into very large frame cows to produce very good progeny. Note: Vendor has another lot of PTIC Charolais Cross heifers this sale and a lot of preg tested not detectable heifers in the weaner and yearling sale.
