Assessor Comments

A lovely quiet draft of Angus heifers. Bred on Te mania bloodlines, they have good bone & conformation. Only a small lot but could be retained as future breeders and are certainly heavy enough to join immediately. Usually retained in the herd but being offered to reduce numbers after the recent drought prompted a rethink on carrying capacity. Vendors scales checked and used. Weight at assessment 291 - 387kg. Ideal heifers for a person who requires cattle which are easy care and easily handled and mustered on foot.
