Assessor Comments	Outstanding line of Booroomooka/Dulverton blood Angus heifers with calves at foot. The entire mob calved down unassisted and present themselves in prime condition ready for immediate re-joining. These heifers are quiet and easy to manage both in the paddock and in the yards. This even line of heifers were bred by the Pickette family in Coonabarabran their genetics showing in their growth, frame and phenotype. This Lot was the second Lot to calve out of the two Lots catalogued. These heifers come highly recommended as a breeding unit. NOTE: * One heifer with twins hence the 17 calves. * Splash of white on udder on 2 head. * White spot on eye of one heifer not considered detrimental * Their sisters are also listed in this sale.
