The cows that were stirry & slightly stirry in the yards were from being held up in the pound. The cows that were stirry and slightly in the crush was mainly from being isolated, asked to stand on the platform for to long or during/after Preg-testing & vaccinating, once back with mob in the big yard they settled down. Cows were good to walk through while taking photos. Cattle that have been handled by good stockman/women. Assessor Comments	Buyers the sale of these VGQ, CFA, PTIC cows creates a unique opportunity for the purchaser to acquire some of the top end of the Chandler Pastoral Holdings genetics, an opportunity that doesn't come around very often. Preg-Tested in calf to Yarrawonga & Strathmore Santa bulls. Their progeny have a renowned reputation of being proven performers on grass & grain. These cows have been great breeders in the Chandler Pastoral Holdings operation over the years since being purchased, these cows have never missed having a weaner taken off them. The progeny off these cows are always in top of the replacement females, feeder steers and heifers. Please note 4 cows with broken udder or bottle front teats, 3 cows with caped hips, 2 cows with lump on jaw, 1 cow with lump on back leg, 1 cow with a blue eye & 15 cows with fly bites on neck, head & eyes not expected to be any issue.
