Assessor Comments	A neat line of predominately Santa and Santa infused first calf heifers. These heifers are doing an exceptional job on there calves and are producing what I would say more than usual amount of milk for a first calf heifer which is showing in the sappy calves. These heifers have all there life in front of them and still have a mountain of growing to do. Vendor has told me all these heifers had natural births with none of them needing assistance. These cattle are in good condition after enduring a lengthy wet period and are doing a great job on there first calf. They are ready to purchase and join to the bull of your choice.
