Quiet: 10 head Slightly Stirry: 1 head	Quiet: 10 head Slightly Stirry: 1 head	Temperament not assessed in Paddock

Heifers handled well and ran through race nicely for the second time after preg test on the same morning. 1 heifer was slightly agitated when under pressure but settled back in the mob.

Handled With	Bikes , On foot , Vehicles
Assessor Comments	A great opportunity presents to purchase a small line of PTIC heifers. These heifers would be a great asset to any breeding operation. They are the pick of their drop as no heifers are retained by the vendor. These heifers are sired by Curracabark Angus bulls and were grown out in the hills and have been bought forward for the last 6 months. Heifers went through AI program with 6 holding to Kellys Angus Quinn Q209 and the remaining in calf to Curracabark Quigley Q77. Please note the Black Baldy heifer has slight scarring on eye but not deemed detrimental. Buyers please be aware heifers are heavily pregnant and all care and consideration should be taken with trucking and handling.
