	Slightly Stirry: 2 head		Slightly Stirry: 4 head			
	Cattle performed well through yards and were easy to handle. Heifers flowed well with some being faster than others although no malice was shown towards operators and were easy to weigh with only a small percentage (2) becoming slightly stirry when being mouthed. All round good and easy to handle towards persons with some experience with cattle.					
Handled With	Bikes , Dogs , Horses , On foot , Vehicles					
Assessor Comments	A good line of crossbred heifers ready to drop their 2nd calf, bred out of the west & joined up to Booroomooka, Inglebray, Texangus bulls. Heifers are in forward store condition as they have had done a terrific job weaning a calf off only recently. Heifers are all PTIC and were tested on 1-9-22 by R. Smith with all heifers ranging from 2-4 months in calf. Buyers a great opportunity to purchase good framed heifers that are PTIC to bulls with reputable bloodlines that will continue on to produce sappy Angus x calves.
