| Assessor Comments  | A very attractive line of heifers that are true to type and very quiet. Joined to (quiet) LBW Newblax Angus bull. This particular bull has been used before in this program and previous buyers have had no problems with calving. These heifers carry forward condition into calving. Giving the right management would go on to make productive future mothers. Originally purchased out of the Euroa area. They have had very good husbandry and are well handled. A neat line of fertile females that will grow into good commercial Medium/Large frame mature cows. Note - Three Heifers has Eye scars (see Picture) Yet very minute. The odd heifer displaying lice rubbing, however certainly not effecting their condition. |
