| Assessor Comments | A line of Angus/ Friesian x cows PTIC on their second calf to the “Yancowina” Angus bull for a late spring calving. These cows were bought as calves from a well known local dairy farmer with high producing cows. Vealer rearers with plenty milk that did a great job on their first calf. With the difficulties of a first calver behind them, buy with confidence and have the rest of their breeding lives in your hands. Quiet bucket reared cows, easy to handle, not over fat in good calving condition. Starting to soften and spring up nicely. Vendor has another lot of these First x cows in the same sale. |
