	Well behaved females, 1 just showing a little bit more anxiety in and around the yards, moving away from the handler a bit quicker, and a bit reluctant to stand still in the paddock during photographing. Once the pressure was off her she was much more settled and stood quietly and fed her calf.
Handled With	Bikes , On foot , Vehicles
Assessor Comments	Small line of breeders that present a good example of the Speckle Park breed. Plenty of milk and doing an excellent job on their 4-6 week old calves. Good long females with depth and bone. Females that would of been retained, only the vendor is wanting to bring forward his calving and therefore removing any later calvers from his herd. Tip top calves at foot that are as square as bricks, looking fresh and have never missed a feed. Please see photos & video for full contentment.
