These heifers handled through the yards very well. The odd heifer stirred up when isolated or in the crush. Cattle moved around quietly while photos were taken and some walked up and were quite inquisitive.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , On foot , Vehicles
Assessor Comments	116 vendor bred Droughtmaster and Droughtmaster cross heifers. These cattle are showing good growth and have plenty of frame to perform. Some heifers have slight scarring from buffalo fly. An opportunity to buy a good run of single branded heifers. Coming off good Mitchell grass these cattle will go forward and perform in the paddock or the feed yard. There are 408 in this line being offered in 4 lots with delivery to be a "run of the gate" but drafted into even lines if there are multiple purchasers. Vendor has other lots in this sale. Due to restricted yard space the heavy and light lines have been boxed but identified with a bang tail/long tail. Photos and videos are of them all boxed.
